Handbook Highlight: "Father Andrew White, SJ School provides students with an opportunity to access computers and computer networks, including the internet. The goal in providing this service is to promote educational excellence in the school. Access to this technology is a privilege, not a right. Students and parents acknowledge that they have read and reviewed the terms of acceptable technology use and agree to abide by those terms.

Parents shall support both school and ADW-wide policies and procedures as they relate to the use of technology and our Catholic Identity. Parents will:

1. Monitor online behavior and social media within the home and notify the school in the event of any incident contrary to the school policy, providing evidence when applicable.
2. Monitor their child's use of the internet when the school networks and accounts are accessed from home or a non-school location.
3. Agree that students' schoolwork should be limited to school authorized accounts only (if provided by the school).
4. Respect the right of the school to monitor student use of technology.
5. Accept responsibility for all fees as determined by school policy related to loss, damage, or misuse of school technology."
