### NOTES FROM NURSE ROSE

May has been designated Mental Health Awareness Month in the US ever since 1949. Mental health is just as important for our well-being as physical health, and the two greatly impact each other. Fortunately, a simple online search nowadays can reveal endless information and resources, including websites such as psychologytoday.com (for finding a therapist) and axis.com (for Biblical parenting of teens). Management of mental illness includes individual and group therapy, medications, and various other treatments. If we learn to recognize signs and symptoms in ourselves and others, esp. our youth, we can establish early intervention, get appropriate treatment, and even save lives.

### Progress Reports

Reports for grades 4-8 were posted to the portal last week. We ask you to please keep in mind that we still have new lessons to teach and work to accomplish. We hope you will support us in encouraging the children to keep studying and to continue to make their school work a priority.
